BRIEF ABSTRACT OF LETTER

Requests sanction to [illegible] Supply to the Hewajis [illegible] sanctioning plinth [illegible] the current year [illegible] the Executive Engineer [illegible]

NOTES AND ORDERS.

M

The Deputy comm's letter dated 16.1.37 explains the facts of the case. Submit for orders with a draft G.O. Sanctg. the proposals of the Sanitary Engineer, as recommended by the D.C and the Municipal Commissioner.

2. The charges on account of portable Crude Oil Engine and Rain Pump are stated to

NOTES—First Sheet

WD 02552—GPB—5,000—10-7-30

amount to Rs 1658, as also previously sanctioned in connection with water Supply Scheme of Channarakatte Taluk. Of this expenditure it was stated that half should be borne by the temple at Channarakatte and that the other half should be borne by the Hemagiri Taluk i.e. Rs 829/- in each case. Now it is stated that this total expenditure of Rs 1658/- should be borne in equal proportions not by two Talukas but by three Talukas, one at Hemagiri another at Channarakatte and the third at Mudukatatore i.e. at Rs 552/- in each case. As this amount is only smaller than the one sanctioned in the G.O. dated 5.1.37, it does not affect the position very much, and it may be allowed to stand. But ~~the draft G.O. put up is for order~~ whether this should be in modification of the G.O. dated 5.1.37 or not is a point which may be ascertained from the D.C.

∴ The draft G.O. put up is submitted for orders

21 may be modified accordingly in the order

M. Venkatesa Iyengar, Esq., B.A.,
Secretary to the Government of His Highness
the Maharaja of Mysore,
General *Department.*

2 pm.

GENERAL SECRETARY. 29 JAN. 1937

SIR,

Protected Water Supply to Hemagiri Jatra,
Krishnarajapet Taluk.

I have the honour to forward herewith a copy of letter No. H. 232/36 dated 16th January 1937 together with its enclosures received from the Deputy Commissioner, Mysore District, requesting sanction to the Scheme.

2. The whole scheme together with 1/3 cost of the pumping set is estimated to cost Rs.6,807/- in additiona to a recurring charge of Rs.200/- for working the pump for about 10 days in the year. As the current year's Jatra is to come off in February 1937, the Deputy Commissioner proposes to work out the distribution system as an instalment of the whole scheme, the Water Supply Department having agreed to lend the pumping set and cistern and to supply the water after chlorinating in the cistern. The cost on this account for this year's Jatra is estimated to amount to about Rs.3,000/- including the hire for the materials and proportionate establishment, tools, and plant charges.

3. The cost is recommended to be met from the funds of the Sri Venkataramanaswamy Temple at the place and the Dharmadarsies have agreed to the cost of the scheme being met from the funds of the Temple.

4. The Temple had a cash balance of Rs.7,481-3-2 at its credit at the close of June 1936 and Rs.10,000/- invested in State Loan Bonds.

The

The Institution can afford to meet the recurring and non-recurring expenditure from its cash balance. Supply of protected water is a necessity. I request that sanction of Government may be obtained for the scheme, the expenditure for the current year being limited to Rs.3,000/-. The favour of early orders is solicited.

I have the honour to be,
Sir,
Your most obedient servant,

Muzrai Commissioner.

Letter No. H.232/36 dated 16th January 1937 from the Deputy Commissioner, Mysore District, to the Puzrai Commissioner in Mysore, Bangalore.

I have the honour to enclose herein report No.Mug...3-117/36-7 dated the 13th January 1937 received from the Sub Division Officer, - French Rocks, regarding the question of protected water supply to Hemagiri Jatra and to state as follows:-

The proposals of the Bureau of Sanitary Engineer comprises of the following items:-

1) Sinking a well.		Rs.1000/-
2) Pressed Steel Tank.		" 2000/-
3) Pipe lines etc.		" 2391/-
(Exclusive of contingencies & Tools and Plant charges).	Total:-	Rs.5391/-
4) Portable Crude Oil Engine & Ram pumps with accessories. 1/3 of Rs.1658/-		Rs. 553/-
(One third being borne by the Chunchinkatte Jatra and the other one third by Mudukatore Jatra).		
The charges for working of the pump for about ~~four~~ 10 days will be about.		Rs. 200/-.

For the next Jatra to be held in February next, the arrangements proposed are to work out the distribution system as an instalment of the whole scheme. The water supply Department will lend for a small hire the engine and pump and cistern available with them. Water will be chlorinated in the cistern and supplied through the distribution system. The expenditure to be borne in the current year is therefore - Rs.2,763 towards the distribution system and Rs.200/- working charges for the season, or in round figures Rs.3000/- (allowing a small hire for the engine). The Dharmadarsies have considered the matter in detail and have recommended sanction to the entire scheme and to this expenditure immediately for giving protected water supply to the Jatra this year. The cost may be met from the closing balance at the credit of the Temple.

In view of the demand for the protected water supply during the ensuing Jatra at Hemagiri, I recommend that sanction of Government may

kindly be obtained to the above Scheme early.

The detailed countersigned estimate and Sketch received from the Sanitary Engineer and the connected records are enclosed for kind perusal.

" Copy."

K

G.O.No.892-6/Muz.140-36-2 dated 5th January 1937 sanctioning a project of water supply to the Jatra grounds at Chunchanakatte at a cost of Rs.7222/- including the charges of Rs.829 on account of Portable Crude oil Engine and Ram Pump.

Letter No.C.914/36-37 dated 28-1-37 from the Muzrai Commissioner in Mysore, requesting sanction to the proposals made by the Bureau of Sanitary Enginerring for a ~~regarding~~ Protected Water Supply to the Jatra grounds at Hemagiri in Krishnarajapet Taluk at an estimated cost of Rs.6807 (non-recurring) plus Rs.200 (recurring) the entire charges being met from the funds of the Sri Venkataramanaswamy Temple at the place.

Order No. 1079-83/Muz 168-36-2
Sec 14/file to M.C
Dated, Bangalore, 3rd February 1937.

The proposals of the Bureau of Sanitary Engineering comprises the following items:-

1)	Sinking a well	Rs.1000
2)	Pressed Steel Tank.	" 2000
3)	Pipe lines etc.,	" 2391
4)	Contingencies.	" 269
5)	Estt.Tools,& Plant) charges at 10½%)	" 594
	Total	Rs.6254
6)	Portable Crude) oil Engine &) Ram pumps,) with accessories 1/3 of Rs.1658 being the total cost on this account, the other 2/3 being borne in equal proportions by the Jatras at Chunchanakatte and Ludatore.	" 553
	Grand Total	Rs.6807.

The total non-recurring cost that will be debited to the temple funds at Hemagiri will therefore be Rs.6807 and the recurring charges for working the pump for about ten days during the Jatra are ~~stated~~ specified to be Rs.200/- bringing the total of the scheme to Rs.7007. The Deputy Commissioner, Mysore Dt. ~~has~~ stated that for the next Jatra to be held ~~in~~ the month of February 1937 ~~the arrangements~~ he proposed ~~are~~ to work out the distribution system as an instalment of the whole scheme and that the Water Supply Department would lend for a small hire the engine and pump and cistern available with them and that the expenditure to be borne in the current year will therefore be Rs.2763 towards the distribution system and Rs.200 working charges for the season or in round figures Rs.3000 allowing a small hire for the engine. The Dharmadarsis of the temple are ~~also~~ reported to have agreed to the entire scheme and to ~~meet~~ the expenditure of Rs.3000 for the purpose during the current year.

In the circumstances, Government are pleased to sanction the above project of water supply, the work for the current year being limited to the extent mentioned above and the cost being met from the closing balance of the temple as recommended by the Muzrai Commissioner. The cost of the Portable Crude Oil Engine fixed at Rs.829 in G.O.read above will be reduced to Rs.553.
